Customizing Individual Pages

1. Open the respective html files within the folder "Connoisseur" using any WYSIWYG or text editor.
2. Replace the default text and the default links.
3. Featured Slider should contain images of ratio 24:10.
4. Featured Images should also contain images of ratio 24:10.
5. No lightbox has been set for images for any page other than the "Gallery" page, to enable lightbox for images on other pages, simply follow the instructions at <http://fancybox.net/howto>.
6. All pages are by default with sidebar(except "Gallery" and Home"), to make any particular page full width, make sure that you have removed the <aside> section entirely and add the class "fullwidth" to the element article, that is, <article> should become <article class="fullwidth">.

Typography

The website is using "Lobster" font for headers. The other font being used is "Century Gothic".
